

Pune Knowledge Cluster (PKC), in collaboration with Salaam Bombay Foundation, is organizing a two-day in-person conference:

# EduConclave 2.0: Transforming STEM Education

Bringing together educators, thought leaders and experts in STEM education the conference will explore innovative teaching methods, share successful practices, and discuss the latest trends in Science, Technology, Engineering, and Mathematics education.

The conference will also host **Techvision**, an innovative exhibition platform under Salaam Bombay Foundation's STEM training programme, where young minds proudly use Robotics and IoT to showcase their creativity, technical skills, and problem-solving abilities. This platform celebrates the boundless potential of students as they bring futuristic ideas to life, inspiring others to dream big and think boldly.
